NUMBER 47

HIGH WATERS LEAVE HEAVY CROP LOSS

Highways Were Flooded and Homes Inundated; No Stock Losses

A check-up of the damages of last Friday's cloudburst proves that it was disastrous to Lake County and to the highways and byways. Farmers suffered the greatest damage, much of which is irreparable, owing to the lateness of the season.

D. M. Casey, of the Agricultural Conservation department, with offices at Grayslake, reports that approximately 500 acres of corn were totally destroyed. Had the receding of the waters been followed by a rain some of the corn might have been saved, according to Mr. Casey, who explained that an opportune rain would probably have removed some of the silt from the corn and saved a portion of it.

No Stock Losses

Contrary to reports in some of the daily newspapers there was no loss of stock in Lake County. In several communities cattle stood shoulder deep in water, but this was only for a short while as they were removed to higher land immediately and suffered no ill effects.

There will be some loss of grain, according to Mr. Casey. This is because of the fact that the grain was badly battered and bent and will be hard to harvest.

R. M. Lobdell, of the County highway department, reported no permanent injury to county roads. The Volo-Gilmer road was under water at a point near Volo and the water there was slow to recede.

State Highways Damaged

State highways at some points suffered serious damages. At one point on U. S. 12 near Fox Lake, traffic was practically suspended, only residents being allowed to use the one-way opening. At this point the cement was a suspended strip with several feet of dirt washed away from under it.

There was a 25-foot break in the Wonder Lake dam and the Richmond dam went out under the strain, resulting in great damage to that community. It was thought for several hours that the Wonder Lake dam would not hold and residents in its path were warned to get out of their homes. Most of them heeded the warning and were ready for immediate flight on the sounding of the warning siren. When midnight came round and the dam was still safe some of them went back to their cottages. Three hundred men worked all night at Wonder Lake, however, plugging the threatening break with rocks.

Lake Communities Suffer

Of the Lake communities Fox Lake was among the heaviest sufferers. Many persons who had come out for the season or the week-end took a look at the high waters and returned home. Water stood in some of the cottages and filled the basements. A section of Grand Avenue was under water.

Channel Lake and other important Lake Centers suffered a corresponding loss in the week-end business, with much damage to cottages.

The much-traveled Skokie highway was under water at several points and at the Grade separation near Waukegan the water was reported to be standing 18 feet deep. Railroads were obstructed and at Libertyville all trains were halted.

The Waukegan township garden plot of 80 acres, located at Washington street and Green Bay road, was completely under water, with great loss of vegetables and plants. On Friday there was not a single plant top visible over the top of the water.

Motorists were stalled along the various highways and in some cases were reported as wading out to their cars in knee deep water.

Fit Hog Crop to Your Farm, Says Russell

Limit the number of hogs on your farm according to sound farm management practices and you'll profit in the long run, S. F. Russell, livestock marketing director with the Illinois Agricultural Association, advises local farmers in a statement to the Lake County Farm Bureau.

"With hog numbers nearly 30 per cent less than in 1933, the market has held steady to strong during recent months. Fair prices have created a tendency among farmers to increase the size of their swine herds in an attempt to gain unusual profits.

"The fellow who has a fixed management program gets ahead faster than the in and outers. After all, it's the average that counts," the statement said.

No Deaths Mar Fourth in Antioch; Local Doctors Treat Minor Injuries

More than four hundred accidental deaths marked this year's Independence celebration throughout the Nation, but Antioch's celebration was unmarred by a single death. There were a few accidents but according to Antioch physicians attending the victims the injuries were in no case very serious.

Dr. Warriner was called to attend several cases in which he termed the injuries from fireworks "minor injuries." Dr. Williams attended two out-of-town persons who sustained injuries, one of them a bad hand injury, and Dr. Deering was called to Camp Hastings to attend a 12-year-old boy from North Chicago who fell from a horse, fracturing a collar-bone; the boy was Robert Hansen and he was vacationing at the camp which is conducted by the Park Ridge YMCA. Dr. Bratrud treated one woman occupant of a summer cottage whose hand was badly burned by one of the comparatively "safe sparklers," and patched up four young men travelers, who suffered from cuts sustained either in a fight or a road accident.

AMERICAN LEGION FESTIVAL RATED A FAIR SUCCESS

Attendance Good in Spite of Bad Weather and Flooded Roads

The American Legion Festival, scheduled to open in Antioch last Friday night in the event of favorable weather, did not open until the following evening because as everybody knows, the weather was the most unfavorable the entire year has put out. A downpour that attained cloudburst proportions started Friday afternoon driving Legionnaires and their ladies to cover, and the Festival was forgotten until Saturday evening when it was decided that the chances were good for a little fair weather even though many of the roads were cut off by water.

The attendance that evening was fair, as on the following days. It reached its peak on Monday when all the youngsters, together with a fair percentage of the oldsters, turned out for the rides and the thrills and the games claimed their share of attention from those who like to "take a chance."

Legionnaires report that the Festival is regarded as fairly successful considering road conditions. It did not measure up to the Festival of last year as to receipts or attendance, but in this they were not disappointed as they made allowances for the general business lull and the protracted cool weather. The attendance is estimated at around four thousand, where last year's attendance was about five thousand and the financial outcome was proportionate.

Officials of the American Legion express their thanks to the public for their generous support of the Festival and for any aid contributed.

Ray Eddy's St. Bernard Wins More Blue Ribbons

Mr. and Mrs. Ray Eddy, of Antioch, showed two St. Bernards at the Lake Geneva dog show last week and carried off three awards.

An eleven-month-old puppy shown by the Eddys took a First blue ribbon, while the female Kyra V. Taubert also took a First blue ribbon and qualified as the best bitch. Eight St. Bernards were in the show, just half the number that was in the recent Chicago dog show where Kyra also won an award.

The award as best of bitches gives Kyra two points toward the championship, which Mr. Eddy is out to win. She will be entered in the Milwaukee fair dog show late in August and in the Rockford show on Nov. 17. St. Bernard breeders repudiate the story of a St. Bernard dog who was credited by the press with killing and mauling a child last winter. Mr. Eddy declares that Joseph Keiser, president of the St. Bernard Club of America, has a signed statement from the child's parents to the effect that the child was not killed by the dog, but that she fell and fractured her skull.

Harold Nelson and Dan Williams of Chicago spent the holidays in Antioch the guests of their parents.

I. A. A. OPPOSES STATE RULE OF SCHOOLS, RELIEF

Farm Group Against Drivers' License Fee, Diversion of Gas Tax for Relief

In the special session of the Illinois legislature which closed June 30, organized farmers opposed bills that would create a state school board, permit diversion of gasoline tax funds for relief, provide a fee for drivers' licenses, and authorize the Illinois Relief Commission to regulate administration of relief, according to a report received by the Lake County Farm Bureau from the Illinois Agricultural Association.

"The school bill proposed a state school board which would have power to prescribe standards for a minimum program of education in the state and enforce its standards by withholding state distributive funds. The bill was defeated in the senate," the report said.

The Illinois Agricultural Association, representing 97 County Farm Bureaus, insisted that the legislation which would authorize Chicago to divert a portion of its city gasoline tax funds to relief purposes be amended in order that the federal allotment of funds to Illinois for highway and street purposes, totaling as much as \$2,900,000 would not be affected.

A provision was added to permit taking the money for relief purposes from that portion of the city's gasoline tax now used for school purposes. The amendment is designed to satisfy the federal requirements. A further safeguard to downstate communities is that in the event any federal funds are withheld, a like amount shall be deducted from Chicago's portion of the gasoline tax funds.

"The Association favored the enactment of drivers' license legislation but opposed the license fee. Administrative costs should be held to a minimum and paid from existing motor vehicle revenues which have increased substantially during the past few years.

"Legislation which authorizes the Illinois Emergency Relief Commission to prescribe rules and regulations governing the administration of relief was unsuccessfully opposed. The Association believes that standards fixed in the past have provided persons on relief with a better standard of living in many cases than was enjoyed by taxpayers who were carrying the cost of relief.

"State authorities should audit state funds and should be authorized to withhold them in case they are improperly used. However, responsibility and control of the administration of relief should be placed in the local communities.

Local officials and citizens are better qualified to determine who should receive relief and the amount which they should receive than a state administrative body," the IAA report stated.

GRASS LAKE YIELDS \$5.00 BLUE GILL

North Chicagoan Is Lucky Man Who Draws It Out

A \$5.00 bluegill came out of Grass Lake Monday. It was on a line manipulated by R. Pratt of 2107 Eickey Avenue, North Chicago, and was the eleventh fish captured of the number thrown into the Lakes by Antioch business men and the Lake associations.

The number of fishermen on the lakes on the Fourth was not what it has been in previous years because many week-enders were kept away by flood conditions. Around several of the lakes there were partly inundated cottages, impossible to occupy, so that week-enders who had depended on them for accommodations over the holidays stayed at home.

City Briefs

Mr. and Mrs. Gilbert Hartnell of Kenosha, Mr. and Mrs. Edgar Read of Grayslake, Mr. and Mrs. Emil Risch and family and Mr. and Mrs. Murry Horton enjoyed a picnic dinner at Fox River Park Monday.

J. T. Emerson of Lake Marie left Friday for Chicago where he was joined by his sons, Jack and Dudley and wife on a trip to Indianapolis and Brazil, Indiana, for the holidays.

NEWS ITEM: U.S.S.R. FACTORIES ORDERED TO ADOPT AMERICAN INDUSTRIAL METHODS

McHENRY COUNTY HAS OWN FLOOD LOSSES

Nine Bridges Went out and Growing Crops Were Damaged

McHenry suffered heavy losses from the storm last week-end and nine bridges were washed out in the county.

The Woodstock Sentinel, a daily newspaper published at Woodstock, stated that it was impossible to estimate the damage done to farms, roads and homes. Greenwood is said to have suffered the greatest community damage, when a bridge went out over the Nippersink creek, the blacktop road on both sides badly damaged and threatened with destruction.

Other bridges washed out in McHenry county were at Alden, Hebron, Dunham, Spring Grove and Chemung. There was a railroad washout between Woodstock and Harvard and trains were temporarily halted. Outside newspapers were unavailable at Woodstock for several hours.

Crop damage was not estimated but was said to be greater than the damages of last year when Woodstock suffered from one of the heaviest floods in the county history.

Richmond Man Kills Self at Twin Lakes

Thomas Henry Foster, a resident of Richmond, shot and killed himself Monday at Twin Lakes in the presence of his wife.

The Fosters had been married two years and were said to have been ordinarily congenial and happy. Monday, so the story goes, there was some altercation over Foster's drinking and during the conversation he planted a shotgun in front of him, leaned his head against it and before his wife knew what was going to happen discharged it.

Foster was employed in a hotel conducted by his father-in-law at Twin Lakes. Formerly he was police magistrate at Richmond.

Mechanical Trouble Handicaps News Plant

Due to mechanical trouble in the office of the Antioch News much of the work incident to last week's publication was done outside the News office. The plant was incapacitated for twelve hours necessitating trips to Chicago and Waukegan and as a result the routine schedule of work was upset and this was reflected in the news columns.

In the report of the quarter-century celebration of the local fire department, full credit should have been given to Arthur W. Rosenfeldt, one of the charter members who was largely responsible for the efficient equipment which the department boasts today. Mr. Rosenfeldt is not only one of the charter members honored by presentation of a service badge but was also chief engineer of the department for several years.

The President of the department today is Laurel Powles, who is also captain in the U. S. Officers Reserve Corps. Robert Wilton is a past president.

Mrs. R. C. Park and son, Robert, of Clearing Methodist Church, Chicago, paid a pleasant visit on Rev. and Mrs. W. C. Hensley Sunday afternoon.

Pure Milk Selects New General Mgr.

The Board of Directors of the Pure Milk Association is pleased to announce the appointment of Arthur H. Lauterbach as General Manager of the organization. He will assume his new duties in Chicago in the near future.

Mr. Lauterbach comes to the Association from Philadelphia, Pa., where he has been manager for the past three years of the Inter-State Milk Pro-

ers' Association, the dairy farmers' cooperative in the Philadelphia market. He is also, at this time, president of the Northeastern Dairy Conference, a federation of dairy cooperatives, general farm organizations and various state departments that are interested in agriculture.

The Pure Milk Association counts itself fortunate in securing an executive of Mr. Lauterbach's experience in the dairy cooperative field, and knows that the thirty-three counties in the Chicago milk shed will benefit under his leadership.

Prior to his affiliation with the Inter-State Milk Producers' Association, he was Chief of the Dairy Section of the Agricultural Adjustment Administration, and before that was general manager of the National Cheese Producers' Federation with headquarters at Plymouth, Wisconsin.

Mr. Lauterbach was born and reared on a farm near LaCrosse, Wisconsin. His education included the Wisconsin Business University, night classes of the University of Minnesota Extension Division and special courses at the Y. M. C. A.

Mrs. Ida Schoper Buried Wednesday

Mrs. Ida Baker Schoper, who died at Loon Lake, June 22, was a native of Montreal, Canada. She was born there July 1, 1873, and was married June 24, 1918, to George J. Schoper. She is survived by her husband, two daughters and one grandchild. The daughters are Mrs. B. A. Giblin, of Haganan, N. Y., and Mrs. Fred Meier, of Albany, New York; the grandchild is Mrs. Meier's son, Robert.

Mrs. Schoper had made her home at Loon Lake for 20 years and was very well-known in and around Antioch, where she will be greatly missed by her old friends and neighbors. She died after an extended illness.

Funeral services were held June 24 at the Malmey Undertaking parlors in Chicago. Burial followed at All Saints cemetery, Des Plaines, Ill.

ANTIOCH INCOME UP \$6,000, ANNUAL STATEMENT SHOWS

Income for Fiscal Year Is \$23,484.85; Expenses Total \$17,000

Antioch's income from all sources, exclusive of special assessment accounts for the fiscal year closing April 30 was over \$6,000 in excess of the income for the previous year, it is revealed in the report of Village Treasurer Russell Barastable which is published in this edition of the News.

Total revenues received for the year just closed was \$23,484.85 as against \$16,917.30 for the previous year, the report shows. Comparison of operating expenses for the two years shows an increase in the cost of government of only \$234.19, the cost being \$16,956.74 in 1937 and \$17,090.93 for the year just closed.

Bigger Balance in 1938

The village opened the year with balances totaling \$2270.61 in the various funds with the exception of the Library fund which began the year with a deficit of \$84.43. At the close of the year the aggregate balances were \$10,404.00 with none of the accounts in the "red."

The village, besides operating at a profit during the year, managed to retire considerable indebtedness, and to invest \$2,850.00 in United States Postal Savings Bonds. From the Bond and Interest Fund \$559.25 was used to pay interest and \$600 for principal payment, while \$400 was taken from the Hotel Fund to repay furniture loan. These amounts, while included in the expenditures, can not be classed as operating expenses.

General Fund, the Largest

The general fund of the village is by far the largest, but it has no source of revenue except that received from taxes. The real revenue producer is the water department which turned in to the village coffers a total of \$5,236.12. Of this amount, \$4,842.42 was for water service and the balance from miscellaneous sources.

The largest balance is carried by the motor fuel gasoline tax fund which had a balance of \$4,026.73 on April 30. This fund will be materially lessened by payments made for the new street improvements, Treasurer Barastable said.

Besides the regular funds of the village there are 12 special assessment funds.

HAMMOND MAN KILLS SELF NEAR BRISTOL

Had That Day Become Engaged to Trevor Girl

Leo A. Ruth, 35 years old, a resident of Hammond, Indiana, died what was apparently a suicidal death near Bristol on last Monday. The circumstances of his death were investigated by the coroner, Jay B. Clerum, and a wire was sent to the relatives of the young man in Hammond, informing of his death.

Ruth arrived Saturday to visit the Howard Waters family at Trevor. That same day he became engaged to Waters' daughter, Ruth, and presented her with a diamond engagement ring. He had been acquainted with the girl for several months and said by Mr. and Mrs. Waters to have been financially well-to-do, owning his own home and possessed of a good job.

Monday afternoon Ruth stated that he was going out to play golf and that he would return later in the afternoon to take his fiancée out. He did not return and it was 6:30 in the afternoon that Mr. Wienke, going to his pastures noticed the car on the side of the road with a man slumped over the wheel. Investigation proved that he was dead. His sweater had been carefully lifted and the gun placed under it for firing. If any letters were left they have not been made public. Ruth Waters and her mother left last night to attend his funeral in Hammond.

Mr. and Mrs. B. R. Burke and Dr. and Mrs. R. D. Williams were guests of Mr. and Mrs. S. B. Nelson at their summer home at Loon Lake Wednesday evening.

Mrs. Rhona Ball is now in active charge of the Ball hotel, formerly known as the Antlers hotel and has completed a thorough redecoration of the hotel and its dining room.

Miss Mary Ellering of Highland Park spent Tuesday in Antioch the guest of friends.

Common Sense

A good substitute for the term "agricultural marketing cooperation" would be "common sense operation." Cooperation is simply sound business practice on the part of the farmer. The growth and progress of American industry was largely the result of the application of the cooperative principle. The growth of American agriculture will be largely the result of the same factor.

One farmer, standing alone, can have no voice in determining markets, prices, agricultural policies or other such vital matters. Ten thousand farmers, represented by an aggressive, responsible organization, can stand on their own feet and fight their own battles. That's "common sense operation."

We're Off Again

June 30 marks the turning of another year on the Federal fiscal calendar. More important, the dawn of the new year sees the government again launching another gigantic financial program in an effort to spend its way out of debt and depression.

Funds totalling about \$12,300,000,000 (in round figures) have been appropriated for Federal expenses and spending during the new year. That figure is a new all time high for America in peace times. The same year will see the National debt reach and pass the forty billion dollar mark, experts say.

If this theory of spending our way out had never before been tried there would be less grounds now for doubt. However, the same experimental policy has been tried every year for the last several years—and it has failed. The only thing different about this new money spree is in its size—that it is larger than ever before. But as the following figures show, the amount has been larger almost every year, and yet recovery has eluded us:

(fiscal appropriations since 1933)	
1933	\$ 5,785,000,000
1934	7,692,000,000
1935	7,528,000,000
1936	9,580,000,000
1937	10,336,000,000
1938	9,356,000,000
1939	12,300,000,000

Yes, we're off again—this time on a still bigger horse.

Some people are wondering what is to be the primary purpose of the President's trip across the country. That's it—primary.

Happiest Birthday

Among the millions of birthdays occurring each year here and there on the earth's face, there is one which is absolutely unique.

It is the Fourth of July.

Unlike the proverbial process, the United States is proud to give its right age. The more than one hundred and fifty years of existence it can boast have all been passed as a democracy, under one type of government and one Constitution. Only the government of England can boast a longer existence. France, Germany, Russia, Japan and the rest have changed their political structures so often that they seem like youngsters compared to us.

But the United States has enjoyed the liberty and justice that come only under democracy for over a century and a half now. Every additional birthday becomes a cause for greater rejoicing, for it helps to prove that freedom is the only enduring ideal in a changing world.

It is hard to realize that America has had so many birthdays. Democracy does not show its age. Today, when reactionary systems of all kinds are running wild over half the globe, this country of ours seems by contrast younger than ever for it has the vitality and the strength that goes with youth.

And the Fourth of July—the most important birthday in the world—should be our reminder that democracy is the only way of life that ensures happy birthdays for all of us who live and enjoy our freedom under it.

Explained

In a scientific, nation-wide poll which shows a drop in the President's popularity for the eighth consecutive month, the American Institute of Public Opinion confirms a previous survey indicating that 80 per cent of those on relief favor Mr. Roosevelt.

This undoubtedly explains the administration's insistence on a relief-spending program, and particularly the President's eagerness to have full discretion as to the spending of these funds without ear-marking or restrictions of any kind.

They'll Need It

Teach the children thrift. When they start out to pay the Roosevelt debt, they will need it as never before.

A Fasting Bonus

We wonder if the government will pay us consumers not to eat any of the record wheat crop this country is producing this year.

Punishment

Frederick the great is quoted to the effect that if he wished to punish a province he set a professor to governing it.

Some people seem to think that because the New Deal went over big in 1936 it will continue to do so. But you can't ever tell. Take Dizzy Dean, for instance.

FARM TOPICS

SANITATION WILL HELP SAVE CHICKS

Clean Brooder House Helps Prevent Infection.

By T. T. Brown, Extension Poultry Specialist, North Carolina State College.

Poultry can be one of the most dependable enterprises on the farm, but the birds must be protected from disease. As more birds are raised, and brought into closer contact with one another, the danger of infection increases.

Moving the brooder house to a new location, where it will be on clean ground, will help cut down the chance of infection. Before it is moved, it should be scrubbed thoroughly with a solution of one pound of lye to 15 or 20 gallons of water.

If the brooder house cannot be moved, several inches of the top soil around the house should be taken up and replaced with clean soil from an area where no chickens have ranged during the past year or two.

Keep the brooder house clean, and don't feed anything that will attract flies, such as liquid milk. Flies spread tapeworms.

When the chicks are 10 to 12 weeks old, or as soon as they become well feathered, move them to summer range shelters where they can range on clean land.

It is a good idea to place the range shelter on the lower part of sloping land so that it can be moved up the slope occasionally during the summer season. If the shelter cannot be moved, clean it out at frequent intervals.

The brooder house runs or yards should be sown to a grazing crop such as Italian rye grass, wheat, oats, barley, rye, clover, alfalfa, or lespedeza. These crops purify the soil and produce grazing.

Fences on the Contour Get Rid of Point Rows

Contour farming in a square-fenced field usually makes a number of short rows or point rows in the corners. Many farmers in demonstration areas are getting rid of the point rows, which are a nuisance to cultivate, by rebuilding fences to parallel the curvature of the contour, says Charles R. Enlow, chief agronomist of the soil conservation service.

One farmer, who had a permanent pasture adjoining a cultivated field, added the point rows to the pasture and added some of the pasture to the cultivated portion of the farm. In the end he had about the same acreage of pasture and cultivated land as before. He protected the grass by not moving the fence until the grass was firmly established.

When land next to a cultivated field has a soil that is rocky, thin, or unproductive, it should not be added to the cultivated portion of the farm.

East Front Laying House

An east front laying house is preferred to the common south front structure, by the Ohio experiment station, after seven years of experience. During ten months of the year, direct sunlight can enter the east front and penetrate to practically the entire interior. On the other hand, direct sunlight can enter the south front only during the winter months, when it is less potent and the weather is such that the windows are closed most of the time.

Along the Windrows

Thin-shelled eggs indicate a lack of minerals or of vitamin D in the hen's ration.

Wheat raised in Argentina in the 1937-38 season weighed nearly 1,000,000 tons.

It takes 34,000 acres to produce the corn required by the Oregon poultry industry.

Using a magnet from an old tractor a farmer can remove metal objects from feed.

Since the composition of eggs is two-thirds water, a gallon of water is required to form 100 eggs.

Sleeping sickness among horses was first recorded in Germany in 1880 and appeared in United States about 1890.

Some poultrymen, with a special market, have found eggs profitable. The work should be done when the birds weigh about two pounds.

Forty-five pounds of corn are required to produce a case of eggs.

Where alfalfa or clover can be grown satisfactorily and economically, dairymen should grow these legumes or legume mixtures instead of grass hay.

To make sure of supplying enough vitamin A for good growth in chicks, poultrymen should include 5 per cent alfalfa meal or alfalfa leaf meal in the ration, especially if the ration contains no cod-liver oil.

TREVOR

The remains of Mrs. Frank Drom Genoa City, were interred by the side of her husband in Liberty cemetery on Wednesday afternoon.

Charlotte and Vernon Hollister spent over the week-end and the Fourth with an aunt in Kenosha.

A number from Trevor attended the carnival at Wilmet Saturday and Sunday nights.

The Elmer Fleming family attended a family picnic at Burlington on Monday.

Mrs. Schonscheck, Salem, and son, Fred Schonscheck and sons, Kenosha, were Trevor callers Sunday.

Joseph James, Antioch, was a business caller in Trevor Tuesday.

Mrs. Grant Minnis, Kenosha, and friend from California, called on Miss Sarah Patrick Tuesday.

Mrs. William Smith and sons, Dousman, Wis., spent Wednesday with her mother, Mrs. Mattie Copper, and sister, Miss Gertrude Copper.

Mrs. William Boersma, Wheatland, is visiting at the home of her son, William Boersma, Jr.

Mr. and Mrs. Charles Oetting were Kenosha visitors Wednesday.

M. Siebert, Salem, was a Trevor caller Tuesday.

Miss Doris Kenzler returned to her home in Burlington, Wednesday after spending a few days in the Elmer Fleming home.

Mr. and Mrs. Harry Fleming, Burlington, called on Mr. and Mrs. Elmer Fleming Monday evening.

Mr. and Mrs. Frank Lasco of Kenosha renewed their marriage vows after fifty years of wedded life together at Social Center hall, Trevor, on Sunday. The Rev. E. W. Williams of Kenosha officiated. Mr. and Mrs. Lasco have eight children and only three of them were able to be present, who were: Mrs. Charles Oetting, Trevor; Milton Lasco, Belding, Mich.; Mrs. Dorothy Murphy, Burlington.

Others present were Mrs. Lasco's three sisters and their husbands: Mr. and Mrs. John Nehring and Violeta Byer, Painesville, Minn.; Mr. and Mrs. Joseph Smith, Trevor, Wis.; Mr. and Mrs. Samuel Mathews, Kenosha, Wis.; and brother and wife, Mr. and Mrs. William Hanneman and daughter, Mrs. Bynum, Douglas, Wyoming; Mr. and Mrs. Mat Hahn, Kenosha; Mrs. Homer Albertson, Delavan, Wis.; Melcom Cook, Burlington, Mrs. Irving Elms and daughter, Louise, Antioch, Ill.; Mr. and Mrs. C. Hicks, daughter and son, Mr. and Mrs. Frank Hicks and daughter, Kenosha, Miss Catherine Scheeler, Burlington, Mr. and Mrs. S. Robin and son, Billy, Belding, Mich.; Norman, Dorothy and Kathryn Mathews, Kenosha. A picnic lunch was served at noon after which a social time was enjoyed. All wished Mr. and Mrs. Lasco many more years of wedded life together.

Raymond Rudolph, Wilmet, was a Trevor caller Tuesday.

Mr. and Mrs. Charles Sibley, Antioch, called on the Patrick sisters, Monday.

Mr. William Evans and Mrs. Earl Elfers called on the former's niece, Mrs. Fred Hawkins, Friday.

Mr. and Mrs. George Collier, Farmer City, Ill., their son, Arnold Collier, St. Petersburg, Florida, and D. C. Collier, Kansas City, Mo., spent the first of the week with their cousins, the Patrick families.

Mr. and Mrs. Arthur Baethke and children, Maywood, Ill., visited their parents, Mr. and Mrs. A. J. Baethke, Saturday.

Mr. and Mrs. Henry Ernie and daughter, Irene, and Mr. and Mrs. Alice Bittner, Chicago, spent over the week-end and Monday in Trevor.

Mr. and Mrs. John Nehring and Violeta Byer, Painesville, Minn., are at the home of Mrs. Nehring's sister, Mrs. Joseph Smith, and other relatives this week.

Week-end and over the Fourth visitors at the Charles Oetting home were: their daughter, Elvira Oetting, Madison, Wis.; cousins, Herman and Fritz Oetting, Berwyn, Ill.

Mr. and Mrs. Joseph Smith accompanied Mr. and Mrs. John Nehring to Burlington Monday where they visited their brother and wife, Mr. and Mrs. William Hanneman. They also witnessed the parade and attended the carnival at the park.

Cats Without Tails

Cats without tails are a popular breed on the Isle of Man. Other unusual characteristics of the felines is the fact that they have larger eyes and longer back legs than the ordinary cat. Their owners claim they resemble rabbits in the way they sit on their haunches. They are more high strung than ordinary house cats and do not readily make friends with strangers. But they are more affectionate when they become acquainted. The cats also disprove a popular theory that the tail is necessary as a means of balancing, because they are just as agile as other species.

Added Many Titles

When Edmund Roberts, American diplomat, tried to negotiate a treaty with Coochin China in 1832, he was unable to impress the Oriental authorities with his importance, notes a writer in Collier's Weekly, until he added to his name on the letter of introduction, by way of titles, the names of cities, lakes, rivers, mountains and counties in his native state of New Hampshire. Then the treaty was signed.

The Sin Eater

A sin eater is a person hired to eat the sins of one who has just died. The practice used to be common in England. A piece of bread was placed on the breast of the corpse. This the sin eater devoured and, supposedly, with it, the former occupant's sins. The rite has been known as recently as 1893 in Shropshire in England and is followed in parts of Bavaria and the Balkans.

Hint to Boasters

"He who boasts of his family tree," said Hi Ho, the sage of Chintown, "should not forget that too much pride in the past is often construed as an apology for the present."

HICKORY

Remember the ice-cream social and candy sale in the Millburn church basement on Friday evening, July 8, at 7:30 P. M., sponsored by the Ladies Aid. There will be musical entertainment. Everyone welcome.

Mr. and Mrs. Lee Savage and daughter, Helen, and son, De Los, and granddaughter, Marjorie Yopp, from Montana, are visiting relatives and friends in the community. They were dinner guests at the Emmet King home on Tuesday of last week.

Mr. and Mrs. Ward Edwards of Belleville visited Sunday and over the Fourth at Bert Edwards'.

Miss Marion Cook of Waukegan was home Sunday and Monday.

Mr. and Mrs. Roy Heydecker of Waukegan visited the John Crawford home Thursday.

Mr. and Mrs. Frank Lavey and daughter, also Miss Esther Rojacki from South Milwaukee were Sunday dinner guests at the H. A. Tillotson home. Miss Esther remained for a week's visit with Caryl.

Mr. and Mrs. E. W. King held open house for the Lee Savage family on Sunday at their home. There were around thirty relatives there. Among those present were: Mr. and Mrs. August Webb, Mr. and Mrs. Bert King from Chicago, and Mr. and Mrs. Mark Wagner and three children from Rockford. Mrs. Wagner was the former Lillian King. Mr. and Mrs. Frank Gethan, Bristol, and the Joe Merville family from Zion and other relatives from Antioch.

Mrs. Jennie Pickles is visiting the Wilbur Hunter family at Mundelein. Mr. and Mrs. George Rohr of Kenosha visited the H. A. Tillotson home Sunday afternoon.

Descendants of Jake Savage held a family reunion on the Fourth at the A. T. Savage home.

Mr. and Mrs. Allen Holtberg and children of Chicago visited Sunday and Monday at the Hugo Gussarson home. Mr. and Mrs. Otto Olsen, Jr., of Park Ridge and Mr. and Mrs. Walter Olsen and daughter of Chicago spent Monday with the Gussarsons.

Remember Only Today

Finish every day and be done with it. You have done what you could. Some blunders and absurdities no doubt crept in; forget them as soon as you can. Tomorrow is a new day; begin it well and serenely and with too high a spirit to be cumbered with your old nonsense. This day is all that is good and fair. It is too dear with its hopes and aspirations to waste a moment upon the yesterday.—Emerson.

English Peasage

The British nobility, in descending order, includes king, princes, dukes, marquesses, earls, viscounts, barons. The corresponding feminine titles are queen, princesses, duchesses, marchionesses, countesses, viscountesses, baronesses. Titles below the peerage include baronets and knights (the corresponding feminine title being lady).

and
VicinityMiss Levandoski Weds
Mr. Vernon Runyard

Last Wednesday morning Miss Lucille Levandoski was married at Holy Name Church at Wilmet, Wisconsin, to Mr. Vernon J. Runyard.

The church was beautifully decorated for the affair and the bride was charmingly gowned. Rev. J. Finan officiated, and the church was filled with guests. Immediately after the ceremony the young couple were feted at Jerry's Tip-Top Inn east of Trevor. In the evening at 8 o'clock a reception was held at the Inn and the newlyweds received congratulations from a great many friends from surrounding towns. The bride is a daughter of Mr. and Mrs. Phil Levandoski.

SIXTEEN WOMEN PLAY
AT CHAIN O' LAKES

Sixteen women enjoyed golf and bridge at Chain O' Lakes Country club this week, with Mrs. Ernest Brook taking the honors at golf and Mesdames Swanson and Brook taking the bridge prizes. Ladies' day will continue to be observed every Monday throughout the season.

Ivanhoe Church Holds
100th Anniversary

The Ivanhoe Congregational church at Ivanhoe will observe its hundredth anniversary this week. This is the fourth Lake County church to stage a centennial celebration this summer. The other three, North Prairie, Yorkhouse and Zion Methodist, held their celebrations together.

The Ivanhoe celebration takes the form of a three-day event on July 9, 10 and 11. On Saturday, the opening day, the anniversary play, "The Open Book," will be presented. The anniversary sermon will be preached by Rev. C. S. Laidman, D. D., on Sunday morning at 10:30. Rev. Laidman is associate director of the Chicago Congregational Reunion. Sunday afternoon the historical service will be held at 2:30.

Rev. C. Arthur Jerne is pastor of the Ivanhoe Church.

In Woodstock, McHenry county, the Methodist church celebrated its 88th anniversary last week.

NEW Office

Dr. Earl J. Hays, optometrist of 20 years experience in the Chicago Loop, has opened an office at 766 North Main street in Antioch, where he has for 4 years maintained a residence. Mr. and Mrs. Hays moved to Antioch from Loon Lake.

Open house was held by the doctor, with Mrs. Hays acting as hostess, in his new office on Thursday afternoon and evening of last week. The doctor's established prestige was attested by the large number of guests who called to express their good wishes and by the handsome gifts of flowers that brightened the office. There were roses, snapdragons and other flowers, and a number of people from Chicago were among the Antioch guests that crowded the place.

Among the out-of-town guests were Mr. and Mrs. Chas. E. Schroeder and son, Charles, Jr., Mr. and Mrs. W. M. Hoehne, Mrs. Evelyn Hatton, Chas. Rinn and daughter, Leona, and Miss Leona Friel, all of Chicago.

Dr. and Mrs. A. P. Bratrude, Dr. and Mrs. D. N. Deering and Dr. G. A. Rodolfs were among the Antioch people present, as was the Rev. and Mrs. J. E. Charles.

At ten o'clock in the evening the American Legion surprised Dr. Hays, who is a Legionnaire, by attending in a body. Late in the evening the guests were served with refreshments.

The Cenotaph

A cenotaph is a monument or tablet in memory of a person whose body is buried elsewhere. The custom arose from the erection of monuments to those whose bodies could not be recovered, as in case of drowning. The term is often used with relation to the monuments raised in memory of those who perished on the field in the World war, especially of the Cenotaph in Whitehall, London.

Meaning of Name Anna

Anna might well be more commonly used as a girl's name, being simple and distinctive. It is of Teutonic and Latin origin and means "of the eagle's breed" or "like the eagle."

First Chain Department Store

According to Famous First Facts, the first chain department store in the United States was the Zion Co-operative Mercantile Institute, created in 1868 in Utah.

Messages Sent by Runners

Incas of Peru could send messages from Quilo to Cuzco—more than a thousand miles—in a week by their system of runners, relaying the message along the way.

CHRISTIAN SCIENCE CHURCHES

"God" was the subject of the Lesson-Sermon in all Churches of Christ Scientist, on Sunday, July 3.

The Golden Text was, "We will rejoice in thy salvation, and in the name of our God we will set up our banners" (Psalm 20:5).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Praise ye the Lord, Praise O ye servants of the Lord, praise the name of the Lord. Blessed be the name of the Lord from this time forth and for evermore. The Lord is high above all nations, and his glory above the heavens. Who is like unto the Lord our God, who dwelleth on high" (Psalms 113:1, 2, 4, 5).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Not materially, but spiritually we know Him as divine Mind, as Life, Truth, and Love. We shall obey and adore in proportion as we apprehend the divine nature and love Him understandingly, worshipping no more over the corporeality, but rejoicing in the affluence of our God. Religion will then be of the heart and not of the hand" (p. 140).

ALL-CHURCH PICNIC

The Sunday School of Antioch Methodist Church is sponsoring an all-church picnic at Fox Rixer Park on the afternoon and evening of Thursday, July 14. The Sunday school, the Church and all friends are invited to participate. We are especially desirous to have the parents of the Sunday School children present that the children may have the very best care. Bring picnic lunch and join in a big old-fashioned picnic dinner. Meet at the church at one o'clock. If you have a car bring it and take as many as you can. This will make extra transportation expenses unnecessary.

METHODIST NIGHT

At 6:30 Wednesday evening, July 13, the Methodist Church will hold its monthly potluck supper, after which District Superintendent A. T. Stephenson will conduct Quarterly Conference. At the close a musical program will be given by members of the choir closing with a recital by Mr. Hans Von Holwede. The public is heartily invited. Bring food of your own choosing to the supper and stay through the end of the program.

St. Ignatius' Episcopal Church
The Rev. J. E. Charles
4th Sunday after Trinity, July 10
7:30 A. M.—Holy Communion
10:00 A. M.—Morning Prayer and Sermon.

Monday, July 11th, the finance committee will meet at 8:15 P. M.

We cordially invite you to worship with us.

A "Brave" Beauty
Contest Judge

Beauty contests were known in Illinois as far back as 1857, research workers of the Federal Writers Project, W. P. A., have learned. One such event held during a celebration near Ottawa, LaSalle County, on July 4 of that year for Indian maidens and squaws was the featured event of the day.

According to the story, an old Indian chief was given the task of acting as judge. After some deliberation, he made his choice. Stopping before a woman who weighed over 400 pounds and stood six feet tall in her moccasins, the chief placed his hand on her shoulder and proudly said, "Prettiest squaw!" She was his wife.

Personals

Mrs. C. W. Pilager of Evanston is spending this week at her summer home at Channel Lake.

Mr. and Mrs. Herschel R. Gaston of Ottawa, Mrs. H. E. Shepard and son, Eugene, Mrs. Elizabeth Behler and sons, Calvin and Glenn of Woodstock were week-end guests of Mr. and Mrs. H. B. Gaston.

Parker Hazen spent Sunday in Chicago the guest of his mother, Mrs. Margaret Hazen.

Mr. and Mrs. B. A. Giblin of Hagerman, New York, and Mr. and Mrs. Fred Meier of Albany, New York, were called to Loon Lake on account of the illness of their mother, Mrs. G. J. Schober, who passed away June 22.

George Behler of Swags Corners was calling on relatives in Antioch Tuesday.

Miss Elizabeth Webb returned to her duties at Webb's Racket store this week, after a weeks absence on account of illness.

Billy Thompson, son of Mr. and Mrs. Ray Thompson of Allendale spent the week of the Fourth with his grandparents, Mr. and Mrs. George Kuhaupt.

Mr. and Mrs. A. Nielsen and Rev. Kistler of Salem and Mrs. Sine Laurson left Wednesday morning for a trip to Cleveland, Ohio, and Jamestown, New York, where they will visit relatives and friends.

Mrs. M. Nixon and mother, Mrs. Einar Sorenson, were in Waukegan Wednesday.

Mrs. W. Dustimer and sons and Mrs. H. E. Shepard, of Woodstock, were calling in Antioch Wednesday.

Mr. and Mrs. Thomas Willock of Oak Park visited Mr. and Mrs. Thomas Wade of Trevor over the holiday week-end, returning Tuesday to their home in Chicago.

The Ragon Fords of Kenosha played two soft ball games with the Trevor Tavern at Trevor last Sunday, Ed at ing in victory for the Kenosha.

Two return games, and Mrs. Ada Trevor next Sunday, called on Mrs. L. Antioch, Sunday.

Milipentilly Van Patten spent the July holidays in Chicago with her daughter, Evelyn.

Mrs. Nellie Wheelback of Beloit is the guest of Mrs. Elberta Straghan at her home this week. Mrs. Wheelback and Mrs. Straghan were dinner guests of Mrs. Thayer at her home on Park Avenue today (Thursday).

Pebble Under the Saddle

A common prank among fellows of the saddle-horse days was to put a pebble under the saddle while the horse's owner was in a store. When the rider came out and put his weight in the saddle, the horse, especially if spirited, would rear. Soon as the fellow hit the ground, he knew what had been done.

Sense of Sight, Taste, Smell

The sense of sight, as well as the sense of smell often assists the sense of taste. Many wine tasters, says Collier's Weekly, when blindfolded, sometimes have difficulty in correctly naming wines that, produced from various soils, have correspondingly varied shades as well as flavors.

Shave Hindu Boy's Head

Between the ages of nine and twelve the orthodox Hindu boy has his head shaved, leaving a small strand of hair on top. He is then invested with the sacred thread and thus formally admitted into the practice of Hinduism.

Testing the Viola

Typical experiments on the violin body include testing the tone and loudness of the instrument with a paper clip on the bridge, with the "f" holes of the air chamber closed, or with carbon dioxide replacing the air inside.

How Leaves Generate Heat

In hot, dry climates the friction of the leaves of trees rubbing against one another in a strong wind has generated sufficient heat, it is believed by some scientists, says Collier's Weekly, to have caused forest fires.

Washington's Face Pitted

George Washington at the age of nineteen accompanied his half-brother Lawrence to Barbados where he contracted smallpox which left his face permanently pitted.

Pledged Estate to United States

Ralph Izard pledged his whole estate to the United States government in 1780 as security for funds needed in the purchase of ships for the Revolutionary war.

Uncle Eben Says:

"A slinger shows Satan do way out," said Uncle Eben, "an den keeps lookin' round to see if do old boy is hangin' round wif any new ideas of entertainment."

LAKE VILLA

Lake Villa Com. Church (M. E.)
Sunday School—10:00 A. M.
Worship Service—11 A. M.

There are classes for all in our Sunday school and we welcome our summer visitors to all services.

The Ladies' Aid Society will hold its annual summer sale of fancy work, quilts, rugs, infants' and children's wear, aprons and home bakery goods at the village hall on Thursday, July 28. A style show to modern and antique gowns will be held during the evening.

David and Patty McGlashan and a friend from Chicago are enjoying their vacation with their grandparents, Mr. and Mrs. A. McGlashan.

Mrs. Mary Miller started Thursday morning on a trip to the Ozarks in Missouri to spend the next few months with relatives and friends there.

Mr. and Mrs. G. Earl Miller had Mrs. Miller's brother from Wisconsin and another brother and family from Chicago as guests over the Fourth of July.

Mr. and Mrs. George Mitchell and son, Alan, of Chicago spent their holiday vacation with Mrs. Mitchell's parents, Mr. and Mrs. J. O. Hucker.

Rev. and Mrs. Deselms and Glenda of Milwaukee called at the Charles Kelly home on Monday and Rosemary who had been visiting at the Kelly's for the past week, returned home with them. They spent Monday in Evanston.

Mr. and Mrs. Edgar Kerr, Miss Jean and Master Jack of Bloomington, Ill., and the George Mitchell family of Chicago were guests of the James Kerr and William Weber families from Saturday until Monday.

Mr. Mueller, who lives on the south side of town, was taken to his home in Chicago by ambulance last week in order that he could be better cared for in the city. Mr. Mueller suffers from a heart ailment.

Nine members of the local Royal Neighbor camp from here attended the "Friends" night celebration at Garretts camp last Tuesday evening.

Mr. and Mrs. Sonnenberg and Mrs. Ronald over the Fourth of July, returned who has been home and Mrs. Glenn Podoll and two sons were guests of relatives at Westfield, Wis., over the Fourth.

The storm of last Friday morning did considerable damage in our vicinity by flooding basements and drowning out crops and gardens, and the firemen were busy all day Friday pumping out basements, some of which had never before been flooded.

The Peterson ice machines were ruined and had to be replaced, and B. J. Hooper lost much in merchandise and drugs stored in his basement. The road just west of town was impassable until Sunday afternoon when traffic was resumed and the Sherwood camp could be reached.

Mr. and Mrs. Charles McCloskey entertained a friend from Chicago on Sunday.

Mr. and Mrs. George Feck and family of Evanston spent last Friday with Mrs. Louisa Thayer.

Mrs. Thayer has as guests this week her niece, Mrs. Byron Lenox and husband of Sterling, Illinois.

The annual family reunion of the Boehms was held last Sunday at the John Walker home and although weather conditions and roads kept some away, there were 43 in attendance for the beautiful dinner and supper served on the lawn. Relatives came from Chicago, Wauconda, Mandelmin and Lake Villa.

Mr. and Mrs. Peter Mork who were married in Chicago on June 30, 1888, held open house last Sunday in honor of their golden wedding anniversary. For more than 25 years they lived at Park Ridge, then 20 years ago came to Buena Park and later built a home in Lake Villa where they now live. They have two daughters, Mrs. Rasmussen who lives near Richmond, Ill., and who was ill and unable to come to the celebration, and Mrs. Carlson of Arlington Heights, who, with her family came out for the occasion. Many friends came from Chicago and Park Ridge to offer congratulations, and dinner was served to a number. Some few years ago Mrs. Mork fell and broke her right hip, and recovered quite well, but only a few weeks ago fell and injured the left hip, so she is confined to her home. The couple has made many friends here who wish them many years of continued happiness.

WILMOT

Mr. and Mrs. Will Cole, Florida, were guests recently of Mr. and Mrs. T. C. Loftus.

Mr. and Mrs. Ray Ferry, Kenosha, spent the week-end with Mr. and Mrs. Walter Rasch.

Mrs. Mary Wright and Mr. and Mrs. Thomas Fyson of New York City, were in Wilmot over the holidays calling on old friends. Mr. and Mrs. Fyson who have a voice studio in New York appeared in concert at the Whitewater Teachers' College summer session Tuesday afternoon.

Mr. and Mrs. Oliver Batza and son, Kenosha, and Mr. and Mrs. Frank McConnell, Jr., of Elgin were over holiday guests of their parents, Mr. and Mrs. William Harn. Twenty members of the Harn family gathered for a family picnic at the County park on the Fourth.

Mr. and Mrs. Harry McDougall

were in Burlington on Friday.

Madeline Freidoff, Chicago, was a guest Sunday of Mr. and Mrs. H. Frank.

Mr. and Mrs. Paul Voss and children attended a family picnic at the home of David Eifers in Burlington on the Fourth.

Grace Sutcliffe, Lois McEwen, Melvin Tucker and Dr. K. McEwen of Oak Park spent the holidays with Mr. and Mrs. John Sutcliffe.

There will be English services at 9:30 A. M. at the Lutheran church on Sunday.

Dorothy Schooley, Janesville, and Grace Beales, Kenosha, have spent the past two weeks at the home of Anna Kroncke while the latter is on a tour of Canada and eastern states.

Mr. and Mrs. Lynne Sherman and Roger, Mr. and Mrs. George Higgins, Mr. and Mrs. Wm. Peterson and family, Mr. and Mrs. Ray Kinreed and daughters of Belvidere, attended a picnic on Monday at the George Hyde home.

Mr. and Mrs. C. M. Andersen of Milwaukee, spent the Fourth with Mr. and Mrs. M. M. Schnarr.

The Wilmot Grade school Mothers' Club will hold a business meeting at the school on Tuesday night, July 12. Their next card party will be at the school on Tuesday night, July 19. Hostesses will be Mrs. Elmer Stensel and Mrs. Ted Leiting.

Rev. S. Jetele had as house guests the past week Rev. Arnold Schultz and son, Armin, of Milwaukee, and Rev. O. Heidtke of Morton Grove.

Sunday guests at the Carey home were Mr. and Mrs. J. A. Nolan, Oak

Park, Mrs. W. Dolyns and Gene Dolyns, McHenry, Mr. and Mrs. T. Fuson, New York City, Mrs. Roy Murdock and daughters, Marjorie, Mildred, Bristol, Elizabeth Elkerton, Kenosha, and Margaret Larkin, Chicago.

A cloudburst early Friday morning raised the brook that flows through the center of the village to record flood stage. It swept over the tops of the three street bridges crossing it and flooded all the basements in the vicinity. Mr. and Mrs. Charles Frank were forced to move from their home, part of the roadway at the M. W. A. hall of the roadway was swept away. Gardens were destroyed along its path and almost the entire W. P. A. park project at the dam-swept away. The river raised to its highest flood stage for the year, doing untold damage to crops planted along its banks. Tuesday the river had started to lower noticeably, although still far out of its usual banks.

OPEN DEBATE IS LIFE OF DEMOCRACY, SAYS CONG. CHURCH

Maintains Minority Party Safeguards the Nation

(By Ralph E. Church)
Evanston, Illinois, July 6.—There have been occasions when citizens of Illinois have expressed to me, sometimes in no uncertain terms, their personal displeasure with criticisms of some particular policy or policies of the Administration. They express the thought that criticism is justified, none whatsoever. Some have gone so far as to urge that as their representative I give unquestioning and unequivocal support to each and every measure proposed, regardless of personal convictions. I have received many letters, cards and telegrams making that appeal.

No doubt a number of other Members of Congress have had the same experience. No doubt many have received all manner of threats of "political death" unless the Administration's program was supported in its entirety, even to the crossing of the "t's" and the dotting of the "i's". There is even a certain official group in the Administration itself, popularly known as the "elimination committee," which believes no one should sit in Congress who dares to criticize or dares to oppose.

But when the day arrives when the Administration in power, be it Democratic or Republican, ceases to have any opposition in the Congress, Democracy in the United States will no longer exist. The essence of democracy is the clash of opinion and open debate. If there were no critics in Congress, how would the truth ever become known to the people? How would waste, graft, bribery, injustices and all such vices of men in public office ever be made known to the people if there were not those of the opposition ready to point them out to the people? It must not be forgotten that in a democratic society the role of the Minority is as important as the role of the Majority.

The American people should have no sympathy for those of the Majority who indicate they are unwilling to have any opposition and who desire, by one means and another, to silence all criticism. They would resent all efforts to intimidate, browbeat and destroy individuals and organizations who dare to oppose.

And we of the Minority should remind ourselves that the American people will have no sympathy for those who do nothing but oppose. The true function of the Minority is not simply negative. It is both negative and positive. On the one hand it is to oppose, and on the other it is to propose. To discharge that dual function properly, there must be courage in propositions as well as oppositions. The success of the Republican party this November will in large measure depend upon the degree to which its candidates recognize their dual responsibility as a Minority party.

From conversations with the farmers of Illinois I am convinced they do not believe in the Administration's Congressional experimentation. Such a program should be made the object of attack and opposition. In a fight against unnecessary regimentation the independent farmer, deeply rooted in democratic traditions, will gladly join. But the farmers of Illinois also ask what we propose instead of this regimentation program. To do nothing will not solve the farm problem. The problem will not solve itself.

To propose a definite solution is also the role of the minority. It must be clear and specific. It must show the Minority capable of the leadership the farmers are asked to give them. As an alternative policy, it is not enough to point out how the Administration's policy is permitting large importations of farm products from abroad. Rather it must be specifically shown how the American market can be preserved for American products. It is not enough to point out that the Administration's policy is gradually taking from the farmer an independent income as a producer. Rather it must be specifically shown how the government can, through research appropriations, find new uses for farm products. It must be specifically shown how new markets abroad can be cultivated, particularly to the south of us. It must be specifically shown how marketing agreements may be strengthened.

In short, there is a real need for new statesmanship. Democracy requires a Minority Party in opposition. That Minority Party also has the responsibility to make propositions dealing with the various problems.

Invention of Antioch

The autoharp was invented for people of limited musical knowledge in Germany in the early part of the Nineteenth century. It consists of a zither with a system of bridges which, when pressed down, mute chords not suited to the melody.

COMING EVENTS

FARMERS TO STAGE FULL PROGRAM AT PICNIC THURSDAY

Cook's Grove to Be Scene of All-Day Frolic; Dance at Night

The Farmers Picnic will be held at Cook's Grove on Route 176, one-half mile east of Rand road on Thursday, July 14. The picnic is sponsored by all Farm Organizations in Lake County.

There will be plenty going on during the day as several new events have been added to the program, according to H. C. Glickerson, general chairman.

There will be swimming events for boys and girls, and also track contests, and special events have been added for the women. The contests will be open to all. There will be a soft ball tournament for 4-H club boys and the Northern Cook county Farm Bureau team will meet the Lake county team in a hard ball game. Horseshoe pitching, checkers, and tag of war will contribute to the day's activities. Music will be by the Wauconda High school band, and at night there will be a dance in Ray Bros. pavilion at Diamond Lake.

Everyone is invited to attend the Farmers' Picnic next Thursday.

Deerpath Inn Is Damaged By Fire

\$250,000 Loss Sustained by Lake Forest Hotel

The fashionable Deerpath Inn, 225 E. Illinois road, Lake Forest, was partly destroyed by fire Wednesday morning. It is believed that a spark from an electric fan ignited some grease in the kitchen of the Inn and started the \$250,000 blaze.

The flames were drawn to the attic through an airshaft and the roof and fourth floor of the building were destroyed. Some personal effects of guests were destroyed by smoke and water. Fire departments from Lake Forest, Fort Sheridan and Great Lakes Training Station fought the fire.

A crowd of 1,500 persons watched the fire. Among them were some of the "socially prominent" Lake Forest folk. The building was insured for \$233,000, according to the manager and is owned by the Deerpath Inn Corporation, of which Buckingham Chandler, of Winnetka is president.

Another One About W. P. A. Efficiency

The foreman of the WPA group came strolling by, according to the vendor of this story and watched a workman tossing nails over his shoulder. Occasionally he used one, but the foreman was more concerned about the ones he tossed away.

After a bit he strolled over to his man and said to him, more or less interestedly: "My man, why do you toss every second nail away?" or words to that effect.

Said the workman: "Ask me something easy, Boss. Half the nails in this keg have got the head on the wrong end. See this one, and this one," and he produced his evidence.

"Where do these nails come from?" queried the foreman.

"From this keg," replies the workman.

"Oh, you poor fellow!" exclaims the foreman. "That's the keg that belongs on the other side of the house."

Camel Through Needle's Eye

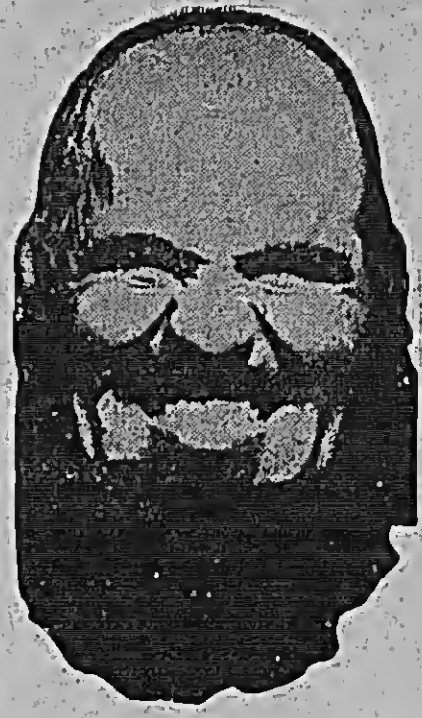

According to some Jewish historians, the needle's eye was the name of a small gate in the wall of Jerusalem through which a camel by stopping and being divested of all its pack and burdens might squeeze.

CALL JIM McMILLEN TO STOP KING KONG IN GRAYSLAKE ARENA

Antioch Wrestler and Abyssinian Grappler Head Card Tomorrow

Friday's Card
KING KONG vs. JIM McMILLEN
Fred Grubnier vs. Johnny Plummer
"Bull" Campbell vs. Fritz Schnable
Rudy Strongberg vs. Hans Schnable

In a bout held over from last Friday because of the rains and flood, King Kong, famous bearded wrestling star who has as yet to meet his first defeat in this country, will go up against Jim McMullen, great heavy-weight championship contender who is

KING KONG

a stumbling block for up and coming stars. In the feature attraction in Peg's Grayslake Arena tomorrow (Friday) night headlining the outstanding card for the season.

King Kong easily disposed of two opponents in quick order at Grayslake and proved himself worthy of world's championship consideration. Promoters called upon Jim McMullen to stop the sensational rise of the King who had been finishing up all their stars, and Mac answered the call when he signed articles for the match two weeks ago.

ALL-STARS PINCH HIT FOR JOHNSBURG; ACES WIN SUNDAY GAME, 14-1

Due to the flooded condition of highways, the Johnsburg team was unable to get to Antioch Sunday afternoon for a scheduled game with the Aces, but fans here saw a ball game just the same, when a team made up of the cream of the crop around Antioch was picked to oppose the Aces. The picked team was dubbed the All Stars, but they seemed to be slightly out of practice, the Aces winning, 14 to 1. However, the All-Stars showed bits of flashy playing in spots, and they touched pitcher Koehn for 11 hits.

Box Score:

TOTALS.....39 1 11
Next Sunday the Aces will travel to Waukegan to play Pete's Tavern team on the hospital diamond. Pete's team is rated as one of the best in Waukegan.

No Diet for Hawaii's Ruler

The original menu for the coronation of Kalakaua, the last king of Hawaii, indicates he was not on a diet. The official dinner was in the Iolani palace, now the territorial governor's office. The menu included three soups, six varieties of fish, in addition to crabs and lobsters, seven kinds of roasted meat, two curries, potatoes, peas, corn, spinach, seven wines, six desserts, fruit, liquor, and beer.

Palace Floors Rose-Covered

At a banquet given by Queen Cleopatra in honor of Marc Antony the floors of her palace were covered with rose petals to a depth of two feet while guests were sprinkled with "Khyre," the sacred perfume of ancient Egypt—a compound of 10 ingredients.

"Seeing's Believing?"

WORDS & PICTURES

Around the World

By William LaVarre

The World's Phoniest Bond!

"I'll bet," said an English editor to a British banker, during a stock market boom when the British public was excitedly buying up all the bonds of South American republics without even stopping to look at a map to see where the countries were located, "that your clients are so dumb they will buy bonds of a nation that doesn't even exist!"

"I'll take that bet!" the banker said, denying that investors could be so gullible. The editor caused a 200,000 pound bond issue to be handsomely engraved; a bond issue of a fictitious country of "Poyais." Within two hours after these bonds were announced for sale the issue was oversubscribed!

Yesterdays

Forty-one Years Ago

Fourth of July Accidents
There were a number of accidents from the handling of fireworks, on Thursday last, in and around Antioch. The most serious was that of Ernest Johnson, at Selter's Sportsmen's Home. The evening was to have been spent in the display of fireworks, and a number of pieces had been fired off when Ernest lit a giant cracker and after waiting a reasonable length of time he concluded it had gone out, and picked it up just as it exploded. The result was terrible. His right hand was completely blown to pieces. Drs. Ames and Karr were summoned and found it necessary to amputate the thumb and all the fingers but the first one.

Another accident, not as serious as the first, happened when Robert Tooker, Jr., thought the giant crackers were not loud enough when fired from the open air, so he shut one up in a piece of tile. When it went off, the tile exploded and Robert received a piece just under the knee-cap. Dr. Karr dressed the wound which he said was only a flesh wound.

Antioch Locals
The work engine on the C. W. C. R. broke down last week.

The Sunday evening train was run in two sections of ten and nine cars each.

The milk platform and station at Rollins was blown down during the storm Sunday afternoon.

Mr. E. Carnduff preached at the Christian Church, in this place Sunday, Mr. Carnduff is a pleasing speaker.

In the races at Richmond on July 4, Bluebird, owned by J. J. Morley, of Antioch, won first money, his time being 2:43 1/2, 2:43, and 2:42.

The M. E. church was handsomely decorated with the National colors Sunday morning, and the large congregation present listened to an able patriotic address by Rev. Abel.

Ten Years Ago

Heavy Rains Destroy Crops & Roads
Torrential downpours of rains the first of this week, following on the heels of the wettest June in several years, had washed out roads in northern and central Illinois and caused untold damage to growing crops, whole fields of grain, and other crops having been destroyed by flood.

Tuesday morning travelers on Wisconsin 83 found about two feet of water flooding the cement just north of the state line; however the water receded rapidly and traffic was not held up at this point. Today very little water is flowing over the pavement.

On Grand Avenue a mile west of Lake Villa, the pavement was submerged several feet Tuesday and the road was impassable at the point where the road crosses a low slough.

With seventeen rainy days the month of June established a rather unique record this year according to the official report of John O. Laux, U. S. weather observer for the Waukegan district. During June last year, there were but seven rainy days.

Origin of Benedictine

The abbey of Fecamp, France, had in 1610 a learned monk named Dom Bernardo Vincelli who was interested in chemical experiments and was devoted to the preparation of medicinal beverages. He succeeded in producing an elixir which soon had wide fame as a refreshing and recuperative drink. Francis I visited the monastery in 1534 and praised the liqueur, which was named Benedictine, ad majorem Dei gloriam, for the greater glory of God.

Trinidad Linked to Continent

The island of Trinidad is believed to have formed part of the South American continent in prehistoric times.

Opera Star Visits McHenry County

The county clerk at Woodstock got a thrill out of issuing a marriage license last week. The Woodstock Journal reports that a "nice-looking" couple dropped in, filed the necessary legal forms signifying their intention to wed, thanked everybody very courteously and departed. Then the county clerk took a look at their signatures. They were William E. Ragland, aged 48, and Edith Mason Polacco, age 47.

Edith Mason, as practically everybody knows, is a great Metropolitan Opera star, who has been twice married to Polacco, orchestra conductor. As for Mr. Ragland, our only information about him is the assurance of the McHenry County clerk that he is tall, dark and handsome.

MILLBURN

The July committee of the Ladies Aid will sponsor an ice cream social in the church basement, Friday evening, July 8, at 7:30 o'clock. There will also be a candy sale and a musical program.

Mr. and Mrs. Thomas Harness and daughters, Shirley and Virginia, drove to Danville Saturday and remained with the former's mother until Monday.

Forty relatives and friends enjoyed a picnic dinner on the lawn at the J. S. Denman home on July 4th. Among those present from a distance were: Mrs. Annie Webster, Mr. and Mrs. Robert Webster and daughter of Berwyn, S. G. Swanson and family, E. W. Scull and daughter, Mrs. Ruth

Village Treasurer's Statement

STATE OF ILLINOIS

Office of Village Treasurer

LAKE COUNTY, Ill.
The following is a statement by Russell E. Barnstable, Village Treasurer of the Village of Antioch in the County and State aforesaid, of the amount of public funds received and disbursed by him during the fiscal year ending on the 30th day of April, A. D. 1938, showing the amount of public funds on hand at the commencement of said fiscal year; The amount of public funds received, and from what sources received; the amount of public funds expended, and for what purpose expended, during the aforesaid fiscal year ending as aforesaid.

The said Russell E. Barnstable, being duly sworn, doth depose and say, that the following statement by him subscribed is a correct statement of the amount of public funds on hand at the commencement of the fiscal year above stated, and the amount of public funds received; and the sources from which received, and the amount expended, and purposes for which expended as set forth in said statement.

(Signed) Russell E. Barnstable,
Treasurer of Village of Antioch.

What's New in Swim and Beach Togs

By CHERIE NICHOLAS

TWO features stand out pre-eminently in connection with this season's swim and beach togs, namely the vast variety of materials in use, the other the fact of the dressmaker touch given their styling. It adds to the interest that gadgets in the way of costume jewelry tuned to sea and sand and outdoor themes usually complete the "picture" of each costume.

Citing a few of the smartest materials employed, first and foremost comes latex, which is a boon to womanhood in that it conforms to "lines" perfectly with a magic this-way, that-way stretching quality which solves the problem of clothes that fit, retain their shape and offer perfect comfort. The big sensation this season is the swim suit of black satin latex with beach cape to match, completing the sense of luxury. Flower printed latex ensembles also have their place in the style parade along water edge and sea line.

Other interesting materials employed for playtime clothes and wardrobes for water nymphs include celanese rayon moire, celanese rayon sharkskin, silk prints of fast color, linens in monotone or spectacular print and cottons so sturdy, so handsome, words fail of describing. Then there's wear-for-ever denim, and washable gabardine, so reliable when it comes to the wear and tear of riotous waves or strenuous mountain climbs.

Another feature that fashion spotlights is the use of striking color contrasts, perhaps in the way of playing up print with plain or the modernist gesture of making the costume one vivid solid color boldly contrasted by another startling color on a sort of fifty-fifty basis.

The models pictured are typical of this season's swim suit and beach ensemble trends. Centered in the group you see a stunning outfit that fuses superbly to a statuesque figure.

ure. This comely young woman is wearing black trunks with printed "bra" of celanese rayon sharkskin. A catlin fish pin on her hip answers the call for suitable costume jewelry.

To the right, fashion offers a new bathing suit ensemble that strikingly combines white with bright ocean blue. The bodice top is blue with catlin fish pin by way of correct gadgetry. The blue beach coat with monk's hood of blue lined with white adds to eye-appeal. This very new and attractive ensemble is of celanese rayon jersey.

A very interesting costume, as shown to the left, uses blue and white cotton print for the beach cape lined with white terry cloth, worn over a loose-fitting white terry cloth suit. Accessory is white catlin Viennese slag horn bracelet with carved edelweiss. This costume won an award and is an adaptation of an Algerian man's costume from the Trophagen costume museum.

To supplement the list of materials smartly in use for beach dress and bathing suit, hopsacking should be mentioned. It is ranked along with sharkskin for shorts and slacks and shirts. Then there are the fascinating crinkle cottons that make such practical and attractive beach coats. Water, sun or sand dim not their beauty or colorfulness.

One of the cleverest ideas is the quilted floral cotton prints. A bolero of quilted print worn with matching printed brocade slacks together with a peasant kerchief of the same print is a happy suggestion. Try this ensemble, it's a winner this season.

WEAR WHITE HATS WITH DARK GOWNS

By CHERIE NICHOLAS

Ask your milliner to show you the voguish draped turbans in all-white that are so stylish to wear with your dark dresses and suits.

For later in the summer the new vogue calls for huge Bretons of white felt or fine white straw. You can get stunning models also in starched white pique, or in white linen-like straws.

It is interpreting true swank to wear all-white millinery even to the veil and the flower trim, or the ribbon banding which taller-inclined women prefer. However, there is another angle to the mode that calls for a dash of bright color, possibly a vivid green quill or a veil with colorful chenille dots. Using colorful velvet ribbon on these white hats also.

The flower toques made of all-white posies "get you" at first sight especially when you see them worn matched up with a corsage or boutonniere.

Now Black-and-White Lace

Combinations Are Popular

The importance of lace for afternoon and evening by now is an established fact. When used as trimming it is most popular in either black-on-white or white-on-black combinations. Chantilly lace is the favorite, and nearly every famous fashion house has its own version of the white chiffon or mousseline de soie evening gown trimmed with ribbons of black chantilly running horizontally, lengthwise or diagonally down the full front.

SATIN IS BIG NEWS!

By CHERIE NICHOLAS

About as important fabric news as has been flashed on the fashion bulletin this season is in regard to the vogue for summer silk satin that is spreading throughout the style centers of the world. The picture presents a day dress of beige silk satin sheer with an Albx-type shirred bodice and slim skirt worn with a natural straw hat for town and country club. All the important designers are going in for summer silk satin in a big way.

Maoris Cooked With Heated Stones

Maoris cooked their food chiefly by steaming it in ovens lined with heated stones. On North Island they used springs, putting the food into nets and lowering it into the naturally hot water. Before missionaries arrived in New Zealand the natives were notorious cannibals. New Zealand is an archipelago, greater in size than the United Kingdom—that is, England, Wales, Scotland and Ireland. There are two main islands. North Island is more irregular and deeply indented than South Island, which possesses a bold, uniform seaboard.

Good Citizenship

Good citizenship represents in a practical form the spirit of courage, unselfishness and sympathy consecrated to service in time of peace and war.

Pie Not for All

In Scotland, a parliamentary decree in 1433 stated that no one under the rank of a baron should eat pie.

Amaryllis Long Grown

Plant breeders became interested in the amaryllis back in the eighteenth century and both English and Dutch gardeners developed the earliest hybrids. In 1909 Department of Agriculture plant men brought 12 amaryllis varieties from England and began working to produce new colors by cross-pollination. For years they worked to bring out a pure white blossom and the first of these was exhibited in 1920. In 1934 an American Amaryllis society was formed and in April of that year the new society sponsored its first national show at Orlando, Fla. The Department of Agriculture's yearly show at Washington, D. C., is the largest exhibition of amaryllis in the country.

Iceland Has Hot Water

Misnamed is the island of Iceland. Summer sunshine and continuous hot water make it an agreeable place in which to live. To the visitor, Reykjavik, with its surrounding mountains thrown into sharp relief by almost 24-hour daylight, is a unique experience.

Eating With Forks

Eating with forks was not known in England until the reign of James I.

Add to the Joy of Summer Living with an AUTOMATIC GAS WATER HEATER

Carefree Service Saves Time and Work...

Meter Test in Actual Home proves the Low Cost of Automatic Gas Water Heating

This water and gas meter check was made in the home of Mr. Fred K. Champlin, at 720 Wagner Rd., Glenview, over a 15-day period.

1. Cost of heating 1 gallon . . . 1/5 cent
2. Cost of hot water for 1 person each day (13.9 gallons) . . . 24 1/5 cents

This included each person's share of hot water for all purposes; for cleaning, dishes and other household needs, as well as baths and showers.

• Hot water for warm, refreshing baths and showers in sultry, sticky weather! How they do pep you up after hard days at the office—after strenuous outdoor fun!

Then, too, with an Automatic Gas Water Heater, there's hot water at the turn of a tap—for dishes, cleaning, shaving—for the dozens of little chores around the house which are done so much easier when you have plenty of hot water.

Come in today—find out how little Automatic Gas Water Heating costs for your home!

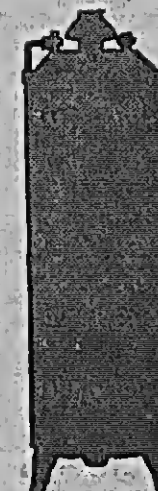

Special THREE MONTHS' TRIAL OFFER (For Limited Time Only)

\$1.50 DOWN

Up to 48 months to pay balance on your Gas Service bill

PLUS Liberal Installation and Trade-In Allowances

Special trial offer applies only to AUTOMATIC Gas Water Heaters having a cash price of \$60 or more, not including installation.

Believe It or Not-- We Have No Proof

Tuesday an Antioch News reporter saw something he never saw before and probably never will again. He doesn't expect anybody to believe it either, because he could hardly believe his own eyes, but here it is, take it or leave it.

Some two miles north of Antioch and a half mile west on the gravel road three hundred humming birds sat on telephone wires, pretty well filling the space between three telephone poles. They perched in groups and chatted amiably and some twenty-five to fifty of their number darted through the air in circles, chasing some sort of an insect of the long legged, thin-winged variety often seen skimming the surface of lakes and rivers; the kind which the reporter in his childhood reverently referred to as a snake-feeder.

A half-dozen snake feeders had been rounded up and they were darting hither and yon, with about as much chance of escaping the playful humming birds as a mouse has of getting away from a hungry cat. Ever and anon a humming bird dropped out of the chase and took up the perch with his languid brothers and sisters on the wire, but his place was immediately filled by another. The birds were plainly dilly-dallying, delaying the catch, balancing, posing lightly and gracefully, their dainty wings cutting the air like a fish's fins cut the water, deftly and without motion.

The reporter stopped his car and watched for a fascinated ten minutes. The play went on and finally the reporter got just a little jittery. He began to wonder if maybe it was the heat. . . . if that last orange pop had

Tibet's Beast of Burden

In the highlands of Tibet, from three to four miles above sea level, live animals with long, shaggy hair. They are known as yaks, and they need warm coats to guard against biting winds and blizzards. In their wild state yaks are said to have no "voice," but when they are tamed they grunt like pigs. Tame yaks carry heavy loads along dangerous mountain paths. Many Tibetans are nomads. Having no fixed home, they wander from place to place, seeking pastures for their yaks and sheep.

How Tombstone, Ariz., Got Name

In 1878 a valuable mine was discovered in Arizona by Edward Schieffelin. Before leaving to prospect in the mountains he was advised not to go because all he would find would be his tombstone. So he named the mine the Tombstone, which later became the camp name.

Into Every Port of World

The freighter is one of the thousands of cargo carriers which steam into every port of the world, pick up freight at scheduled ports or wherever they can, and sail on to other ports as inducements offer. These ships range in size from 1,000 tons gross upwards.

Discovered, Named Brazil

Brazil was discovered by Pedro Alvares Cabral in 1500. He named it Terra de Santa Cruz, or Land of the Holy Cross, and took possession of it in the name of the king of Portugal.

been just as innocent as it looked. . . . Hurriedly he moved along, and that was that.

Lights of New York

by L. L. STEVENSON

Two hundred and forty thousand miles out into space. A trip to our nearest celestial neighbor, the moon. The skyline of New York. The blue velvet sky of night. A great rocket propelled by a series of explosions since, to make the trip with one impulse, would require a starting speed of seven miles a second, which is somewhat too much for even this speed-mad age. A gentle coming to rest in the midst of one of those great craters which astronomers see and which we look on as the man in the moon, the lady in the moon or the rabbit in the moon. The boundaries of the depression, jagged mountains. The peaks extraordinarily clear and distinct. On the moon there is no atmosphere to blur the general scene. Plainly visible, a planet we have never seen in the heavens before. We have never seen it because we live on it. The stranger, the earth.

A Jules Verne tale? No. The trip to the moon can be made in comfort at the Hayden planetarium, which is a part of the American Museum of Natural History. The trip is taken by means of a complicated, very expensive machine. A gigantic and highly technical magic lantern. A machine so versatile that to put it through all its paces would take days. So each month, there is a different trip. The roof of the planetarium, a great dome of thin steel plates, serves as the sky—and the screen for the magic lantern. Before the trip to the moon, a lecture in a room downstairs where the various planets revolve around the sun in their correct orbits. The one farthest away, Pluto, is not shown because, to retain the correct proportions, it would be somewhere out in Eighty-first street. What surprised me was that though the planets are different distances from the sun, they are all practically in the same plane, there being a difference of only a few degrees.

A real trip to the moon might be mechanically possible today. But there is one great drawback, the lecturer explained. Meteors. Space is full of meteors. Most are no larger than the head of a pin. But they are all dangerous. Flying through space, they travel at speed much greater than rifle bullets. Thus a fusillade of armor-piercing projectiles. The earth is bombarded by about 100,000,000 meteors every 24 hours. But the atmosphere is such protection that comparatively few reach the earth. Some of the huge metallic masses, together with numerous fragments, are on exhibition at the museum. Queer sensation looking at and touching what once may have been a part of another world.

While the trip to the moon is a stand-out feature, never yet have I failed to find something interesting at the Museum of Natural History. In fact, what is meant to be a short visit always turns into a long one. That reminds me of two young women on their first trip to New York. They wanted to see the museum but because of limited time, decided to inspect only the larger exhibits. Well, they ran into cases of small prehistoric insects and became so interested they never saw anything else.

Speaking of visitors. There was that Detroit man who, as his train neared New York, noticed that a young and quite pretty girl kept smiling at him. As there is plenty of frost in his hair he was quite set up about the matter. But he fell differently when, in a smoking-room conversation, he learned that the girl was being taken to Baltimore for mental treatment.

Then there was the newspaper man who went to Sing Sing on assignment, and on the steps leading up from the Ossining station encountered a little colored lad who asked him for a penny. The reporter replied that he didn't have a penny.

"All right, mister," was the response. "Gimme a nickel."

By Nell Syndicate.—WNU Service.

Memorial to Three Howes
Spencer, Mass.—Honors symbolized by the Howe monument here are threefold. It is dedicated to Elias Howe, Jr., inventor of the sewing machine; William Howe, originator of the truss type bridge; and Tyler Howe, inventor of the spring bed.

"Iron Lung" Is Built From Pile of Scraps

Seattle.—Martin Cohn, garage-man, has made a "mechanical lung" from an old sewing machine, some sheet metal, automobile parts and pieces of rubber tubing.

The contrivance functions the same way as do the "iron lungs" that are used in keeping alive persons whose lungs are affected by infantile paralysis. It has a plate that fits over a patient's breast. A motor creates a vacuum under the breastplate, causing the patient's lungs to expand and inhale. Air then is pumped back into the space between the plate and the breast, forcing the patient to exhale.

EXPERT GIVES TIP ON "MAKING OVER"

Idle Dress Can Be Converted Into Chic Costume.

By CHIERIE NICHOLAS

If you are good at "making over" here's a suggestion that may help to give a new look to the black or navy dress that has been hanging in your wardrobe this many a day, needing "something done to it" to bring it up to date.

Why not make it into a suspender skirt (so smart this season) and if you plan a right you could possibly get a little bolero out, too. Supposing the blouse top has been gathered into a wide corselet girde effect, carefully rip the upper portion away, leaving a high-built skirt effect, and providing sleeves and enough for a brief bolero.

To the skirt with the high-built effect the corselet girde gives it, add suspenders made out of the old belt or, lacking such a belt, we suggest that you either match up the material with a short remnant, or a different material could be used "in a pinch," just so it be the black or the navy or whatever the color of the skirt. You must also contrive to get two shapely patch pockets out of the material for these are to be sewed on the skirt one at each side of the front.

And now for the piece de resistance! You are to hand-embroider the suspenders in gay peasant colors and design. You could, if you preferred, carry out the embroidery in self coloring. With interchangeable blouses you will be enjoying "worlds of wear" out of this bolero-suspender-skirt costume the entire summer through and on into next fall.

FRUIT JEWELRY

By CHIERIE NICHOLAS

Not only in green orchards are cherries-ripe glorifying the landscape these summer days, but at the jewelry counters in fashion's gardens of beauty and allure, red-ripe cherries (judging from their luscious colorings) plus a regular fruit salad mixture of catalin oranges and pears in realistic yellows and greens are dangling with tantalizing grace from golden links, these necklaces complemented by matching bracelets and a fruit clip that you pin just where it shows off to the best advantage. You can see in the picture at the top how dramatically these gayly colorful catalin fruit necklace, bracelet and clip sets "glamorize" a dark costume. You'll love equally as well the effect of this jewelry with white, as shown below. The immaculate white-aspensnowdrift starched pique jacket which this young woman is wearing over her flower-print dress is a high-style item this summer.

Little Change in Sports

Dresses Seen in 50 Years
Fifty years has seen comparatively small change in women's sports dresses.

Each year they have been modified to conform with the current trend but the basic design remains the same, according to Ken, designer of classic sports dresses.

The first sports dress came into existence in 1880 with the advent of the safety bicycle and pneumatic tires and was of the shirtwaist and skirt type not unlike those worn today, he says.

FLASHES FROM PARIS

Tiny ruffles of lace entirely cover slim evening dresses. Embroidered pockets feature as high-style trimming accent. Novel lapel ornaments stress importance of gadgets.

Paquin favors lace-trimmed flowered muslin frocks. A loading couturier is making entire dresses of ribbon. Reboux creates velvet sports hats for select clientele.

White lace blouse with white jersey tailored suit is smart for summer.

ACCENT ON POCKETS

By CHIERIE NICHOLAS

The more decorative and useful the pockets that your dress, jacket, suit or blouse proudly boasts the better. Here you see a pretty lassie framed in a background of apple blossoms wearing a white culotte outfit in new celanese rayon suiting fabric. This attractive playtime costume is pocketed to a nicely, each pocket enhanced with hand-run vari-colored stitching. Just because amusing gadgets are essential in the scheme of things this season, this outdoor girl has a novelly catalin brooch at her throat in the shape of a college girl's cap with tassels.

Hair on Man's Face

Shaving tests made at the Mellon institute over a period of years show that the greatest density of hair on a man's face is on the center of the chin, where there are 750 hairs to the square inch. The upper lip is next with 685, the upper cheek 500 and the lower cheek 250.

Won Ills Spurs

It was in Curacao, a Dutch island in the Caribbean off the coast of South America, that Peter Stuyvesant won military promotions which led to his appointment as governor of Manhattan island, then New Amsterdam.

Criminal of Insect World

The mantis likes killing for killing's sake, and will continue to do so for the fun of it—long after his appetite has been appeased. Like the soldier, he uses camouflage, and in Siam is garbed in pink with green stripes for wandering undetected over rhododendron flowers.

Siege of Paris Balloons

During the siege of Paris in 1871 there were 64 balloons sent up with 91 passengers, 334 pigeons and 3,000,000 letters.

NOTICE OF PUBLIC HEARING

Notice is hereby given by the Board of Education of the Antioch Township High School District No. 117 in the county of Lake, State of Illinois, that a tentative budget ordinance and tentative appropriation ordinance for said school district for the fiscal year beginning July 1st, 1938, and ending June 30th, 1939 are now on file and conveniently available to public inspection at the residence of the secretary of the Board.

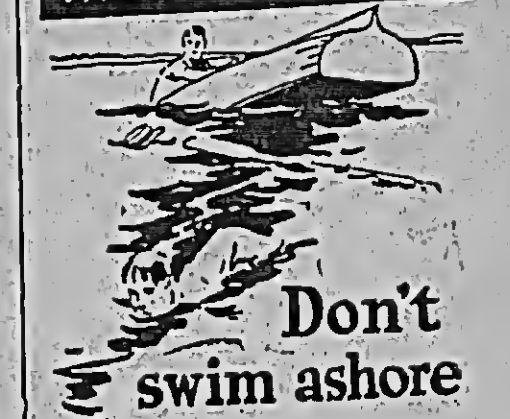

Notice is further given that a public hearing on said budget and appropriation ordinances will be held at 8:30 P. M., D. S. T., the 18th day of July, 1938, at the high school building, in this school district.

Dated this 7th day of July, 1938.
Board of Education of School District No. 117 in the County of Lake, State of Illinois.

By HELEN OSMOND,
Its Secretary.

Card of Thanks
